(EHOWELL) Checked for DTCs. Called the dealership and asked about open recalls, but there was not a related recall. Browsed through TSBs to see if anything sounded related. The vehicle is not acting up at this time. There are no warning lights on, and we have driven the vehicle 41 miles in an attempt to duplicate the concern. Also, examined under the hood and raise the vehicle on a rack to examine underneath. No obvious damage was found. We are sending the vehicle to the dealership for them to inspect, since this is a safety related concern. The customer's complaint has been given in writing for an aid to the technician. EH
